gotomaxx maxx Archiv Mail & Print Business Edition WIN

Non-new

Everything as a perfect copy in the PDF format!

All printed files and every email which is generated on the network or sent land as a PDF copy in the central archive data bank. In optical quality like the original! Thus every archived document can be also printed out afterwards faithfully.

Nothing gets lost!

When required you can bring out every desired file / email any time again, also those which were extinguished on the single PC stations in the course of the time.

Automatically!

maxx archive mail & Print must be supposed to be put into archives only instal and after the desired default (whether everybody or only certain files / emails is furnished) once. Then the software runs independently, i.e. automatically in the background.

Quick finding again!

As simply and fast like with a searching machine (e.g., Google) you can find again later required documents in no time: because by simple headword input. Since maxx archive grasps while putting into archives – also automatically! – the text elements, file names, reference lines etc. in an index list. Maxx archive mail & Print supports you even in search of e-mail appendices and your contents.

Quick installed, integrated and used!

maxx archive is technically seen "only" one printer / printer driver which uses the pressure data for generating and memories of PDF documents just instead of printing. Hence, accordingly simply and without any problems installation and the integration are in the existing hard and software scenery.

Popularly and safe!

For archiving uses maxx archive the advantages and technologies of the popular PDF of format and uses the security of the Microsoft SQL server. The access to your documents in maxx archive is protected by a password before unauthorized access
