CGS Oris Works 4.2 / Oris PDF tuner 4.2

O HF, O PA, O-LED, O-IPP, O-ETIF, O-TRA,
O GRANDPA

Dongle: Txxx3

ORIS Works functionality:

=====

O HF stands for
O HF manager ORIS Works Hotfolder 1 4,000.00 4,000.00
including predefined Hotfolder for
ORIS Uses, export of HP,
Level HP, EP, DCS

UPE was on the 02.11.04 4000 EUR

O-IPP stands for
Import of PDF and PostScript-
To documents for ORIS Works

UPE was on the 02.11.04 7100 EUR

O-ETIF stands for
Import and export 1 4,000.00 4,000.00
from TIFF and TIFF/IT-P1
for ORIS Works

UPE was on the 02.11.04 4000 EUR

O grandpa stands for
Grandpa's function for ORIS Works

UPE was on the 02.11.04 4000 EUR

O-TRA stands for
Automatic overcrowding
with the export of level PDF, level PostScript,
TIFF/IT, Scitex Handshake
for page ORIS and ORIS Works

UPE was on the 02.11.04 4500 EUR

PDF ORIS tuner functionality:

=====

O Pa stands for
PDF ORIS tuner for PC
PDF and PostScript editor, evaluation from
To grandpa's comments with the side import,
Side creation, picture treatment, export from
HP, level HP, EP, DCS, TIFF

UPE was on the 02.11.04 1495 EUR

O-LED stands for Linework treatment
TIFF/IT and Scitex CT. and LW data
for page ORIS

UPE was on the 02.11.04 500 EUR

UPE per new version on the 02.11.2004 adds
25,595.00 net / export
4,095.20 16% of VAT
29,690.20 incl. 16% of VAT

The modular workflow system of Preflight, data conversion, Color management, CTP, digital pressure and many other uses

ORIS Works is the base for the start and the wide pursuit of document-related, automatically tramping processes. A lot of routine work can be automated with ORIS Works easily.

The basic Hotfolder principle assigns a workflow station in the form of a configureable use to a list of her hard disk - or any list in the net-. All stations of a workflow can be connected with ORIS Works in a chain.

Start, expiry and result of a workflow are as fixed with ORIS Works as event-driven or name-related branching out.

For many uses predefined Hotfolder are available from CGS. For example:

ORIS Color tuner for colour space transformation of the pictures (e.g., offset after gravure)
ORIS Works GRANDPA - for the exchange of coarse pictures by fine pictures
Adobe Distiller for the change of PostScript after PDF
Most basic uses base tuner on PDF ORIS and can be adapted in an easy manner to your special needs and configured. The configuration of all workflow stations occurs with ORIS Works under a uniform user interface. In addition, it allows ORIS Works to assign nearly any PC uses to a Hotfolder.

No result without control

So that you are any time in the picture whether all working steps were explained, all working steps are held on in a protocol and are automatically grasped in a statistics

The universal tools for the treatment of PDF and PostScript documents

Forget problems with customer data!

PDF asserts itself rapidly as a standard file format to the delivery of pressure data. With increasing complexity and variety of the programmes also rises the danger that by the production mistakes creep. With the PDF ORIS of tuners you can check efficiently the delivered data, correct and make printable and generate PDF/X-1a or PDF/X-3.

PDF ORIS tuner (developed from page ORIS) is worldwide the mightiest tools for the treatment of PDF and PostScript documents. They have access to all side elements like texts, writings, courses, colours, geometry, pictures and overpressure parametres. You explain even picture retouchings, shades and transparency effects in the imported file. No other tools offer these extensive correction possibilities. With it you master all load minute corrections and avoid thus costs and production delays.

Advantages of PDF ORIS tuner

Problems rib avoidance of add-on costs and prize disputes because files were processed not properly and with caused.

Saving of time and cost savings as well as better customer services by implementation of all load minute corrections.

More efficiency and pressure quality, because customer jobs are immediately ribbed the first time properly and are printed.

Integrated picture treatment and side creation

You do the work for which you needed up to now several programmes now with just one. On the side you can explain all functions and steer the creation of a shade or from clear surfaces in relation to all other side elements exactly, besides, e.g. The There and Herspringen between picture treatment and layout programmes belongs to the past.

For the side creation and picture assembly PDF ORIS puts tuner comfortable tools for side division, creation of geometrical elements with colours, colour courses, transparencies and unsharpnesses at the possession. Also the picture manipulation meets all the wishes: scale, turn, shine, copy, distort in perspective. No limits are set to the formative imagination. Now complicated settings of tasks in the DTP area can be solved faster, easier, better and with it more productively.

By the picture treatment PDF ORIS fulfils tuner the highest claims. Gradation corrections and colour corrections are exhaustive about the whole motive, in provided masks or in the paintbrush area possibly. Besides, paintbrush size, paintbrush kind and paintbrush density are arbitrarily changeable in wide areas. Masks can be generated with the different tools which work with good contrast automatically exactly. Of course there are also especially attractive functions like the increase of the own colours, the Bildschärfung and different effect filters. All operations order themselves lasierend or covering and are applicable on single, several or all colour extracts.

Text sentence

With PDF ORIS of tuners a comprehensive sentence functionality is available. With it text sentence is as possible in any constructions with syllabic separation as the definition of global and local style presentations. The syllabic separation supports of course different languages in a document. Mehrspaltiger sentence is possible about the concatenation of text areas.

With PDF ORIS of tuners you can dye text areas not only in a colour, but also form pictures and colour courses in the writing, as well as put text clear and blurred.

Digital picture effects without borders

Use the nearly boundless possibilities of the production of effects by the picture treatment. By use of photo shop Plugins Compatible with Photoshop an extensive library of filters is available to you. It are supported Plugins of the most different suppliers, e.g., Adobe, Kai's power tools and many other more.

Final side production

High production security is guaranteed by the possibility to generate final sides in different issue formats.

PostScript, EP and DCS are natural. But PDF ORIS tuner also offers here more:

PDF, PDF/X-1a, PDF/X-3 and level PDF about Acrobat Distiller

Level PostScript

TIFF/IT-P1

Scitex Handshake

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
