TIFFPager

TIFFPager is a new product from Lucid that brings a broad range of capabilities to prepress and printing companies.

TIFFPager is a fully automated, JDF enabled application that can process up to 16 full res 1 bit TIFF files, cutting, snipping, folding, combining, colorizing, down sampling and producing multiple output files in PDF and/or JPEG format.

Bypass the headaches of imposing "application files" and then trying to deal with rip - trap - correction cycles. Instead rip and trap individual pages and let TIFFPager create imposition ready PDF files. These files are easier to proof, easier to correct and easier to impose.

TIFFPager can be configured to automatically monitor hot folders picking up 1 bit TIFF files and then to search the file name or internal TIFF Tags to determine the ink represented by this file. Then using an extensive, user editable, table of ink colors it creates PDF files of each 1 bit TIFF that is colorized for the ink. These files then drop into a hot folder for a printer with clear film loaded. These prints are then mounted on top to produce the progressive color overlay proof.

TIFFPager can be used to load multiple 1 bit TIFF files from larger signatures. Then multiple "Output Packages" can be specified for clipping sections of the signatures into smaller pieces, with or without overlaps. These pieces are then output as PDF at full resolution and are ready to expose the signature on smaller devices.

Post Rip Workflow for Imposition

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
