+

Finalproof in 5600

The reproduction of half-tone dots on edition paper up to the format B2 + makes Finalproof in 5600 a really pressure-obliging Digitalproof system.

The FUJIFILM Luxel Finalproof in 5600 is a landmark in the Rasterproof technology. With the reproduction of real half-tone dots and the use of the standard colours CMYK is of the Finalproof therefore a digital Proof system which fulfils the demand of many companies for a pressure-obliging digital Rasterproof really. The development of the Finalproofs is based on the newest state of the very well proven technology of the analogous COLOR ART of system. Hence, Finalproof also works in the digital workflow after the same high-class standard and is convincing by the highest reliability. The single colours are exposed on the outside drum by means of a multi infrared laser diode automatically and passergerecht. In addition, the transference to the desired edition paper fulfils the demands which are made to an efficient and pressure-obliging Digitalproof system.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#).
