The advantages

They as a user profit from the following advantages:

They must be no colour management expert to spend perfect Proofs

They save time, money and problems

They receive all uses which you need to the digital Inkjet-Proofing, from a hand

The idea behind premium

Today many users try for cost reasons to come round the production of own profiles and, therefore, use the standard profiles of the best of all-CD. These profiles are of very good quality, nevertheless, they cannot consider the technical variations by which the printers are defeated. Only if one provides individual profiles for a certain pressure system, one is able, the last little quantity in quality from the system herauszukitzeln. Exactly for this setting of tasks delivers Best of all with the premium options a unique solution.

Best of all Color manager,

with every user his own profiles and Linearisierungen can generate. Besides, the special is the easy user guidance: The software carries out all tricky settings itself – the user must not fight with the commitment of ink limitations or Light and norm distributions any more. To the construction of a complete printer adaptation from Linearisierung and profile only few steps are necessary. The user must do nothing else to print out as different test forms and to measure with a spectral photometer.

Of the Best of all Color manager already considers at the time of the profile production the reproduction qualities of the concerning printer and lets this in the profile production with flow in.

The premium option work first in connection with Best of all Colorproof and Best of all Screenproof. The Best of all premium suite option exists of the following parts:

Best of all Remoteproof (with colour measuring instrument Best of all Eye)
