PULSES QC ensemble

This PULSES ensemble QC is suitable perfectly for the Proofing on PC and Mac. It combines the prize-winning PULSES TM spectral photometer with MonacoQCcolor, the respectable software for the evaluation of Proofs.

Product functions:

- High-class control local or on the network
- Functions with Industriestandardtargets and tolerance with which you see whether your Proofs within the specifications lie
- Analysis of the device issue and simply readable passport / Fail-Anzeige
- Data release on the network with TCP/IP systems
- Report production with two-dimensional and three-dimensional analysis graphs

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
