

MonacoDCcolor

MonacoDCcolor

Boost color accuracy with digital camera profiling

MonacoDCcolor is the ideal digital camera profiling solution, created with professional photographers in mind. Profiling your digital camera allows you to seamlessly integrate digital shots into your ICC color-managed workflow. MonacoDCcolor works in conjunction with industry standard targets, which have been specifically developed for use with digital cameras to produce the highest quality digital camera profiles available. Digital camera profiling ensures that digital captures will look their best and match your scene colors. As a result, you will spend less time retouching images to recover the original colors. MonacoDCcolor is the perfect accompaniment to any color managed workflow that already includes monitor and output profiling.

How it works:

Step 1: In a studio setting, set up your scene. Place the input target in a central location within the scene, so that its position is parallel to the camera's film back.

Step 2: Configure the camera so that the input target fills the viewfinder and capture the target. Save the cropped target as a TIFF file.

Step 3: Open the image in MonacoDCcolor, crop the target, and create the profile.

Step 4: Use the profile statistics to determine the camera profile quality and make any appropriate adjustments to the camera settings to improve profile results.

Step 5: Now save the profile and begin shooting with confidence!

Features and Benefits:

Creates ICC profiles for digital cameras

Allows digital cameras to capture color accurately, reducing the need for image retouching

Simplifies the profiling process with a wizard-like interface; digital camera profiles can be built in less than 5 minutes!

Intelligent algorithms determine the optimum profile for your digital camera

Automatic color balancing and compensating for uneven color target illumination

Provides statistical information about the color performance of your camera

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
