CF57 Spectrophotometer

This durable countertop unit has a sphere geometry and simplifies the color measurement and quality control process. It quickly and accurately measures a wide variety of color samples of 1/2" or larger including paper, fabric, painted surfaces and many others. Easy to use with minimal training.

Let us help you choose the right spectrophotometer, sphere or 0°/45° geometry, depending on the type of samples you need to measure and your database requirements.

Product Features:

- * Inter-instrument agreement: 0.30 ΔE_{ab} avg. BCRA Series II Tile Set
- * Short-term repeatability: *0.10 ΔE_{ab} (max.)
- * Built-in captive white calibration reference
- * Sample holder allows previewing sampled area
- * Removable sample holder for measurement of very large or awkward samples

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
