VC100B VeriColor Hub

VeriColor is a complete system that features a programmable hub to interface with up to six sensors. This automated online quality control system provides non-contact measurement and continuous reporting. Easy to operate, the system works on virtually any material and in the harshest production environments, offering comparisons to specific standards or absolute measurements.

- # Full-spectrum illumination system detects subtle differences on varying surfaces, ensuring accurate color identification.
- # Non-contact operation eliminates risk of damage and waste.
- # Repeatable, accurate measurements are produced under all types of production lighting conditions.
- # The system stores information on up to 50 active colors at once, eliminating the need for constant reprogramming.
- # Operates in dusty environments and operations that require explosion-proof protection.
- # Online color measurement and evaluation of color deviation allows complete coverage of product run without stopping production.
- # Works with network connection or serial interface to support a network of computers and provide automatic control of all operations, including calibration.
- # Measures a full range of materials, such as textured, finely patterned, gloss and for products such as vinyl, textiles, food pigments, films, glass, and powders.
- # Measures within a range of up to five feet without significant variation from system to sample.
- # Complete documentation of color quality recorded and stored for later evaluation.
- # Objective evaluation according to accepted international standards ensures integrity of online measurement program.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
