i60 scanner USB

i60 desktop scanner of Kodak with USB 2.0 - even more speed for your uses

The i60 scanners of KODAK were developed especially for the everyday use in small offices and other desktop intended purposes in departments. With this varied scanner you can scan in Black and white, grey steps or colour and use Color-drop-out.

The i60 scanners offer the Duplex functionality (two-page scanning). Besides, the front and the back of a document are scanned with the help of two CCD sensors at the same time.

Documents of the most different state and formats with ease can be processed by the automatic paper supply (ADF). KODAK i60 scanner disposes of an integrated level bed for scanning of engaged or sensitive documents.

The USB-2.0 interface allows a real Plug-and-Play-Installation and the highest scan speeds.
