Standard objective SP AF 28-75mm f/2.8 Tu XR LD Aspherical [IF] Macro

"The smallest and lightest standard objective of his class. The big luminosity makes ""Available Light"" photograph for the pleasure and, besides, provides for excellent picture quality. Sharp and excellent pictures are the result. The objective was optimised especially for the application in digital reflecting reflex cameras (Tu objectives). Very good resolution property, very decreased light rubbish to the edge, minimised chromatic aberration and improved scattered light behaviour make this zoom the first choice for digital, but also analogous reflecting reflex cameras."
