

Faltautomat estefold 2300

Folding machine estefold in 2300

estefold - the compact systems to the millimetre-exact fold of copies and plotter drawings for users from planning, construction and manufacturing

Long-standing experiences in the final processing of drawings, a technically mature construction method and the use of high-quality materials round the general view.

Folds of drawings to 4-m length (across folds to 2.5-m length) with a maximum width of 93 cm on the final format German Institute for Standardization A4 or other Standards. Whether package or notebook edge - button pressure is enough.

estefold in 4211 - with automatic Überleitteil to the direct coupling in plotter, printer and large format photocopier.

Three versions - three speeds

estefold in 4211-4 for pressure speeds to 4 m / min.

estefold in 4211-8 for pressure speeds to 8 m / min.

estefold in 4211-15 for pressure speeds to 15 m / min.

The possibility to give drawings also by hand rounds the practically oriented use. The infinitely variable adjustable investment rail on the supplying table guarantees an exact folding result.

The tiltable Überleittisch estefold in 4211 is to be moved with playful ease of 55-cm height till the vertical position and permits the adaptation to different issue heights of the plotters, as well as the comfortable access to the devices.

The serial interface allows to you the folding machine to steer "on-line". They determine folding programme and issue kind of the drawings from the PC. In addition, the right position of the drawing is controlled; disturbances in the pressure folding process are announced and evaluated. (optional software)

Butterfly interfaces for:

- * Ratio plot base
- * Xerox Accxes
- * PLP Plotworks
- * SCP
- * KIP KIPCONE

Technical data

- * Paper length: 210/420 - 4000 mm
- * Paper width: 297 - 930 mm
- * Filing tape: to 50 German Institutes for Standardization A 0
- * Package width: 180 - 210 mm
- * Edge width: 0 - 30 mm
- * Folding programmes: 8
- * Folds: to German Institute for Standardization 824
- * Set surface: B/L/H in mm 1671x1475x1085
- * variable finish height: 550 - 1600 mm
- * Connected loads: 115 / 230 V 50 / 60 hertz 10 A/6A
- * Weight: 270 kg / 275 kg

Options

- * Notebook patrol machine

- * A2-rotary device
- * Filing enlargement
- * Investment rail for hand input
- * Across folds 297/305
- * Tilttable notebook patrol machine 198/210
- * Sheet filing
