

OnTimeProof

OnTimeProof

Complete Workflow Management Tool for Automated Online Proofing!
OnTimeProof® works seamlessly with your current production workflow!
The Only Completely Automatic Remote Proofing Solution for a wide variety of production workflow solutions, including:

- Heidelberg's DELTA RIP
- Harlequin's ScriptWorks RIP
- Adobe Distiller
- As well as many others!

OnTimeProof® allows your clients to view proofs of your RIP'd jobs on the Internet using standard Web Browsers.

The proofs are generated from the actual ripped data. This workflow allows you to process a file one time through your production RIP, then generate digital color proofs, form proofs, film, and OnTimeProof from the same file. No additional processing of data is needed between the proof and the actual film output, which insures that the proof that you view on screen reflects the final printed product.

OnTimeProof® features

Integrated Online Proofing for Post Rip Production Workflows!

Complete seamless package includes:

- # Integrated web server
- # Powerful SQL database
- # Fast XML based site implementation
- # Production rip and file conversion tools
- # Automated view file generation & uploading based on job numbers
- # Online annotation-collaboration
- # Job and page based approval
- # Security maintained with login and password requirements
- # Plug in design interface for custom look and feel
- # Single design pack file per design
- # Platform independent
- Automated view file uploading based on job numbers. Based on existing job numbering to eliminate production overhead and job errors.
- Online annotation and collaboration capabilities. Based on Acrobat with Server implementation means you can provide your customers with real time collaboration but not have to install special software at their site.
- Security maintained with login and password requirements. Better than simple email attachments or FTP access where mistakes are easy and common occurrences.
- Built in Web Server and database provide an easy to install, self-configuring, solution than can run on in-expensive basic machines.

Plug in design interface for custom look and feel

For a limited time Lucid is offering free design creation based upon your current web site look and feel. This makes OnTimeProof® seamlessly integrate with your current website whether locally or remotely hosted.

Single design pack file per design. Entire web interface design, including art and images are included in a single file.

Platform independent. Runs on Windows NT, 2000 (pro or Server), XP, Unix, Mac OS X.

OnTimeProof server may also act as normal web (http) server to serve other static or dynamic web pages

System requirements

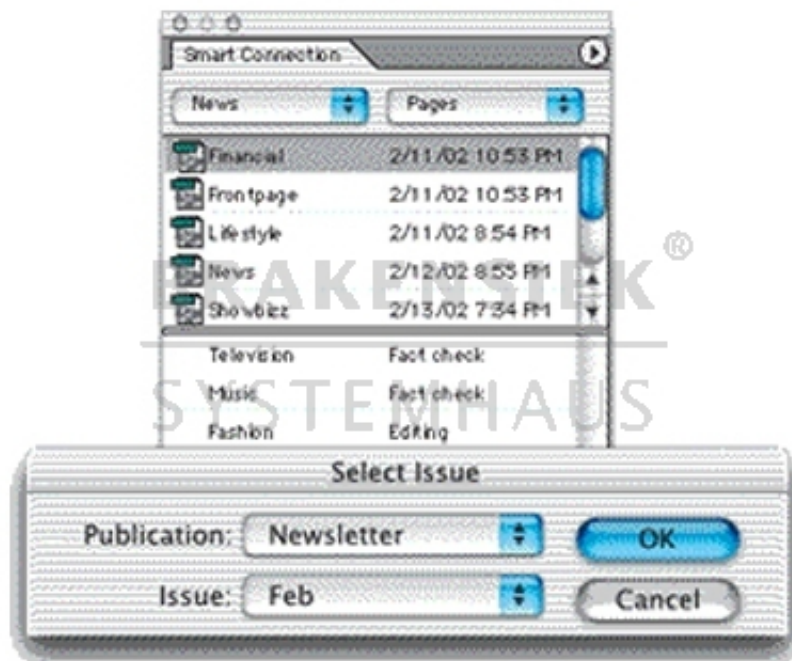

The software of Lucid Dream Software Inc. is designed to run on Windows NT Server 4.0 or later on an Intel Pentium based processor.

A minimum RAM requirement of 64 MB is needed for the installer to proceed.

The minimum hard disk requirement for the products is 2 MB.

A minimum total disk space requirement is normally 2 gigabytes.

The amount of space utilized varies dependent on the file sizes in use.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
