NetBotz 500 Wall

IP-based surveillance

NetBotz - this is the new IP security appliance basiernde of APC. The NetBotz 500 is the latest generation of surveillance systems. The modular design offers tremendous flexibility and expandability. The camera modules (camera pods) and the sensor modules (sensor pods) can be operated at a distance of about 100 meters to the base station and are hereby awarded to manage large server rooms or entire floors. Moreover, the base station with a wireless connection via the wireless 802.11a/b/g be connected to the LAN.

The camera module is equipped with a microphone and offers a resolution of 1280x1024 and up to a maximum frame rate of 30fps. The NetBotz 500 is a 35 ° x 28 ° W H C-mount lens and a CS adapter (field of view up to 64 ° 53 ° W x H) delivered. The alarm signal is transmitted using SSL encryption. The NetBotz 500 features adjustable switching limits and rules for alerting and alarming levels.

- Technical specification NetBotz 500 (
- High-performance color camera with a max. Von1280x1024 resolution and a max. Refresh rate of 30 Hz
