ColorGATE Screenprint Proof Module (SPPM) - the first digital screen print proofing of the world  
The trump ace for Production Server 4 with FILMGATE module

Never proofing was so fast, affordable, efficient and reliable. ColorGATE, with its world first screen print proofing module now the long missing link in the chain unbroken perfection in everyday printing. As an add-on to the production server with film gate module paves the way screen print proofing module for maximum system and production safety, and also new areas of business.

Screen print proofing module - as innovative as it is versatile

The power of the possible speaks for itself:

Digital color proofs

Digital halftone proofs

Scanning and color-accurate digital proofs \*

Digital color-accurate short-run

Digital scanning accurate short-run

Scanning and color-accurate digital prints \*

grid comparisons

Winkel-/Moiré-Kontrolle

color control

\* Simulation of the print result of binding with color screen and playback screen printing machine

Screen print proofing module - makes customers happy

Need not be - misprints, complaints, long proofing smudges. Screen print proofing module in conjunction with Production Server 4 and FILMGATE module provides realistic consultation prior to the instrument.

Screen print proofing module - quick

Create templates to quickly produce film, color-accurate proofs, and singly or in small runs can, for example, the emphasis that creates competitive advantage.

Screen print proofing module - provides liability

What works and what does not? Without proof to judge the film difficult. Screen print proofing module shows with little work directly on production alternatives (grid method, screen rulings, material simulation).
