ColorGATE Proofgate 4

Legally binding digital proofing solution including FOGRA

PROOFGATE is a standardized digital proofing solution that brings security and reliability in your production proof. The first proofing solution with licensed FOGRA media wedge to create legally binding digital proofs.

Perfect solution for in-house design and advertising agencies, prepress, printing companies, publishers, marketing departments

- Easy to use software

Color contract proofs according to industry standard printing
(ISO 12647-2)

- Supports all common file formats (including PDF / X-1a and -3)
- Built-Ugra / Fogra media wedge and evaluation protocol
- Separation preserving Device Link technology

Tailor-made solutions

With PROOFGATE4 you have extremely flexible software available that provides for any use the right software package:

PROOFGATE ENTRY

The entry-level solution in the digital proofing market. This software includes everything you need for high-quality proofing! The FOGRA media wedge and the evaluation software are not included!

PROOFGATE

The full version contains all the necessary features for a legally binding proofing! Here the FOGRA media wedge and the evaluation functions are already integrated. Stands as a function of inter alia in addition to the multi-color support, the JDF processing.

PROOFGATE PROFILER

Features as the full version. In addition, you'll gain the ICC device link profiles and put it directly into the software. If you already have a spectrophotometer, this package is the ideal solution for maximum quality control.

Ideal PROOFING Paper

Also, the paper plays an important element for safe and reliable under the contract proofing requirements FOGRA. Therefore we offer with the newly developed ISOPROOF270g a certified proofing paper that perfectly matched to the color range gate and is available as a sheet as available in rolls.
