

EIZO CG221 Premium Edition

EIZO CG221 Premium Edition

Unconditionally accurate color reproduction - a professional for professionals. The CG221 is characterized by an extremely wide color gamut and a very sophisticated control of color reproduction. Cyan areas of CMYK proofing views are visible on the CG221 for the user. In a three-dimensional table of CG221 brightness and color rendering controls for each pixel and for each tonal value. The result: perfect brightness uniformity and color purity. The precise hardware calibration of brightness, color temperature and gamma correction reduces the DELTA.E for the white point to a value of about 0.5.

Adobe RGB color space

3-D look-up table with digital uniformity equalizer

12-bit Look-Up Table and 16-bit calculation precision

Hardware calibration of brightness, white point and gamma

1920 x 1200 pixels, 16:10 aspect ratio
