The reliable, scalable, rack-ready server powered by UltraSPARC® III technology. For service provision, e-commerce, financial services, branch office automation - any function that requires exceptional power and reliability in a compact, rackable package - the Sun Fire 280R server is an ideal solution. It's powered by up to two high-performance UltraSPARC III Cu processors and features the RAS capabilities Sun servers are known for, including redundant hot-swap power supplies with independent power cords, and front-accessible drives. Its fibre-channel hard disk drive backplane offers software-mirrored hot-plug boot drives. Plus, it provides Remote System Control for simple, lights-out management. With its 4U form factor, the Sun Fire 280R server fits neatly in standard 19-inch racks - perfect for any environment where space is at a premium.
