

Mobotix D12Di Sec Night N22N22

Mobotix D12Di Sec Night N22N22

new

equipped with 2x N22 lenses.

FixDome indoor camera with two individually adjustable lenses and megapixel resolution. The elegant design allows for discrete surveillance of buildings and entrances. Standard equipped with different lens combinations. All MOBOTIX functions.

The D12D series:

The network camera series from MOBOTIX D12D Dual Dome with its elegant design is suitable for use in interiors and facades with high design standards. The camera series includes high quality models for indoor and outdoor use. The new wall mount provides concealed cabling and also covers the standard RJ-45 flush-mounted boxes.

The camera models in the D12D-series DualDome each have two flexible, independently adjustable camera modules, which can be individually positioned in any direction. The individual models are available with different lenses. Come in both camera modules, super wide-angle lens is used, obtained with the cameras viewing angle of 180 °.

With megapixel resolution (1280x960 pixels), integrated microphone and speaker, ISDN connection, motion detection, alarm management with pre-and post-alarms, alarm alert via telephone call, digital zoom, event-controlled recording, switching functions (1x In, 1x Out) and RS232 interface, the D12D Dual dome cameras also include all the trusted MOBOTIX functions for convenient, professional camera use.
