Vollversion aus Upgrade

The killer app for Mac is now even better than ever!

Parallels Desktop for Mac enables you to run Windows, Linux, and more side-by-side with Mac OS X on any Intel-powered Mac, without rebooting. With Parallels' award-winning virtualization technology, you can run Mac OS X and your favorite Windows applications at the same time. You can even drag-and-drop files between desktops!

Leading the way with our trademark innovation, the latest release of Parallels Desktop for Mac comes packed with 50+ new features and enhancements, including Snapshots, 3D graphics, and the new Parallels-only SmartSelect.

With the newest version of Parallels Desktop, you can:

Use Windows and Mac OS X at the same time... without rebooting

Run Windows programs like native Mac applications with Parallels Coherence

New! Open Windows files with Mac programs and Mac files in Windows programs with Parallels SmartSelect

Share files and folders between Windows and Mac OS X

New! Browse through Windows folders and access files without launching Windows with Parallels Explorer

New! Run selected PC games on a Mac with support for 3D graphics

Achieve maximum performance by leveraging Intel® Virtualization Technology

New! Protect your Windows virtual machine with Parallels Snapshots

New! Experiment with new software and enjoy peace of mind with multiple snapshots

Migrate your entire existing PC to your Mac with Parallels Transporter
