

proofSIGN - fast & easy proof verification

proofSIGN is a fast and easy proof verification application

Be sure your proofs are colour accurate and match international printing and proofing standards. Or you may want to match your own standards.

Measure and evaluate your proofs quickly and easily with proofSIGN against the latest ISO 12647/7 proofing standards.

Three Easy Steps

- Print out the supplied control strip or FOGRA media wedge with your job and measure it with the GretagMacbeth Eye-One spectrophotometer.
- Evaluate the results on screen.
- Print out a label and attach it to the proof. Send the proof with the pass to your client with confidence knowing that the proof is absolutely correct.

proofSIGN is compatible with the latest ISO 12647/7 proofing standard. It evaluates DeltaE and DeltaH deviations from the target ICC profile you have chosen. The default tolerances are included but you can adjust these tolerances to your individual needs.

proofSIGN comes with all the ISO standard profiles included. If you want to add any other target just select the associated CMYK ICC profile and install it within proofSIGN with just one click.

The proofSIGN screen evaluation and printed label show the DeltaE and DeltaH tolerances and the measured results for the paper colour, the primaries and an average for the secondary colours. The pdf gives you a detailed report for each colour on the control strip as well as the paper colour.

proofSIGN System Requirements

Macintosh®

Mac OS 10.3 or later

64Mb RAM

2 USB ports (one for the Eye-One, one for the label printer)

Label printer - label size 88mm x 36 (recommended Dymo labelwriter 400 label 99012)

Colour Monitor

GretagMacbeth Eye-One

PC

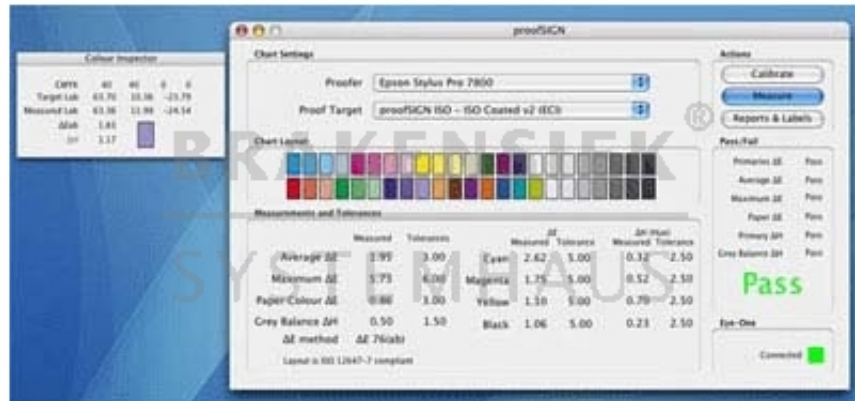

Windows® 2000 or XP

64Mb RAM

2 USB ports one for Eye-One, one for label printer

Label printer - label size 88mm x 36 (recommended Dymo labelwriter 400 label 99012)

GretagMacbeth Eye-One

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
