

Linotype Circon ELS5000

Linotype Circon

Non-new

New standards in performance and quality is the Linocolor Circon in desktop scanners. For the sophisticated hardware and software meet the highest demands. Sun is in addition to the extremely high-performance color CCD line, consisting of 10.500 pixel elements, including the unique triple lens system is used. Thus, three different levels of resolution, are optimized for each template size chosen. In SuperHighRes mode with Circon by the optical resolution of 2400 x 2400 dpi scan achieves a quality that the comparison with slide scanners do not need to fear. And the Eversharp function provides further assurance that succeed each scan, because it automatically ensures optimum depth of field at each specific template. All this makes the top of Circon scanner in its class.
