- Country Kit
- 6 GB (6 x 1 GB)
- Five USB ports
- Four FireWire 800 ports
- Apple Keyboard with Numeric Keypad (local) & User's Guide (local)

Outside the beautiful one. Inside the Beast.

Intel processors, the next generation.

The Mac Pro is now on the all-new Quad-Core Intel Xeon "Nehalem" processors driven. With a new system architecture, 8MB of fully shared L3 cache, an integrated memory controller and 1066MHz DDR3 ECC memory, these processors deliver up to 2.4x greater memory bandwidth. (3) And new Turbo Boost technology speeds up the processor when all cores are used.

Unprecedented Mac graphics.

The new Mac Pro features the fastest graphics ever on a Mac. The standard configuration includes the up to 2.9x faster NVIDIA GeForce GT 120 graphics card with 512 MB of GDDR3 memory. For even higher performance Ñ up to 2 times more Ñ is an upgrade to the ATI Radeon HD 4870 possible. (4)

Flexible display options.

With a Mini DisplayPort and one dual-link DVI port on every graphics card and room for up to four cards, the new Mac Pro provides dozens of display options.

Newly developed from the inside outward.

A completely redesigned interior makes access and upgrade your Mac Pro even easier. Let's lock up to GB of RAM. Put on the fly up to four PCI Express 2.0 expansion cards. Move up to 4TB of storage. Add the new, easier to install Mac Pro RAID Card. All this without turning the system or to toil in a small space.

Delivery

- Mac Pro
- Power Cable
- Apple Keyboard with numeric keypad
- Mighty Mouse
- extension cord for USB keyboard
- Installations-/Wiederherstellungs-DVDs
- Printed and electronic documentation

Included software
