The filing strip machine HF-111 is the ideal complement to an existing folding machine.

The fan folded stack is simply listed on the guide rail until it stops. The filing strip machine automatically stick from below the stitching strip against the last layer of the folded document. So continuously, all formats are provided equally effective with the stripes. You get absolutely uniform stack with a very solid and tear safe bonding.

- * Issue strips in rolls
- * A role for some 1,800 drawings

Absolutely uniform stack, with very solid and einreißsicherer bonding are the better features of the system.
