

Kodak Q-60 Color Input Target

Kodak Q-60 Color Input Target

The KODAK PROFESSIONAL Q-60 targets are on the Kodak Professional Ektachrome film in both 35mm and 4 x 5 inch formats and on colored paper. Designed especially for prepress houses in the printing industry, this can also target by professional photographers, desktop publishers and are used in hybrid imaging.

Range of Targets

The Kodak Q-60 Color Target documents the entire circumference of the color reproduction, which may constitute a specific family of photographic products. It is envisaged both for the visual comparison and for the numerical analysis via suitable software programs.

Three color separation marks at the top on the target facilitate the film assignment in the production of color separations.

Scanner color characterization targets produced in accordance with ANSI IT8.7 / 1 (transmission) and IT8.7 / 2 (reflection) Standards (or ISO 12641) are manufactured by the Eastman Kodak Company and are available as follows:

5x7 reflective - Single Target on KODAK PROFESSIONAL ENDURA Paper

4x5 transparency - Single Target on KODAK Ektachrome film

35mm transparency - Single Target on KODAK Ektachrome film
