

Apple AirPort Express

Apple AirPort Express With iTunes Mac + PC

The AirPort Express Base Station with iTunes is a pioneering product for wireless communication that allows you to play your iTunes music over your wireless network to your stereo or powered speakers. It also allows you to share both a broadband Internet connection for up to 10 users to also use a USB printer.

The AirPort Express base station can be set up very easy and put into operation. She is so intelligent that it recognizes from the user connected to cable, would end to which the user it. This integrated detection mechanism to the user in setting up its network with exactly the right questions. This makes the AirPort Express base station product for wireless communication, easy to set up the easiest.

AirPort Express supports multiple security options, including Wi-Fi Protected Access™ (WPA/WPA2) 3, Security Wireless security (WEP) configurable for 40-bit and 128-bit encryption, MAC address filtering, NAT firewall, support for RADIUS authentication, 802.1X, PEAP, LEAP, TTLS, TLS, FAST Time-based access control to protect your wireless network is straightforward with the appropriate levels of security for your needs.
