

Heyer Narkomat Anaesthesia System

Heyer Narkomate

An innovation in design and technology

Hundreds of people all over the world come into contact with our products daily – as both patients and users.

As a life-critical system, the NARKOMAT+ anaesthesia system is an integral part of the modern anaesthesia environment. We combined our market experience with the needs of our clients to design this flexible solution, which allows for present and future upgrading and extension within the anaesthesia workplace: HEYER NARKOMAT+

Both in external design and technology, the NARKOMAT+ represents the state of the art. It is compatible with most patient monitors on the market. The NARKOMAT's flexibility allows you to design your own anaesthesia workplace.

The NARKOMAT+ monitors inhaled gases in semi-closed and near-closed systems, and is thus ideal for low-flow techniques, minimizing use of gas and anaesthetic agent.

The NARKOMAT+ is exceptionally easy to operate, and safe and reliable in daily use. It is outstandingly leak-free and is thus a particularly economical solution.
