

Norman Security2Go! (no USB Stick)

Norman Security2Go! (no USB Stick)

Category: IT-Security -> Smartcards and Encryption

Manufacturer: Norman

Not-New

New edition of on-demand scanner on a USB stick / virus protection plus Anti-Spyware / expert tool for the desk-top rapid test.

Norman Data Defense Systems, a specialist in anti-virus, anti spyware and anti-spam solutions, has launched with Norman Security 2 Go, the new edition of the successful product NVC to Go! based on the Norman Security 7 technology to market. The on-demand scanner on a USB stick checks PCs, disk drives and folders on Microsoft operating systems for viruses and spyware. The solution works exclusively from the stick, not installed on the computer and acts invisible to existing security solutions. The mobile scanner is especially suitable for IT administrators, system-house technicians and help desk staff to investigate computer often with clients and colleagues for malware. The product can now be obtained from the Norman-partner.

For safety testing, the user selects the PC to test drive, folder, subfolder, or a single file with the mouse button. The brace of anti-virus software and spyware protection that detects and removes viruses, worms, Trojans, spyware and other types of malicious program code.

Reliable protection against unknown viruses

Like all anti-virus solutions by Norman Norman Security 2 Go works with the proactive SandBox technology. During the scan all suspicious programs are passed to the SandBox. This simulates a complete PC or a network, letting the unknown file execute their routines. They then undertake an assessment and classified the program as either a trustworthy or dangerous. Norman also offers thus an additional level of security beyond traditional signature-based virus scanning.

Price and Availability

The on-demand scanner on USB flash drive is now available from all partners and Norman is 79 € including VAT. The price includes a twelve-month license of the current updates for virus signatures and to download updated versions of the protection solutions over the Internet.

System requirements

Pentium PC, Windows 2000/2003/XP/Vista
