

Siemens VDO DTCO digital tachograph 1381 Rel. 1.2

Siemens VDO digital tachograph

Siemens VDO has developed the digital tachograph DTCO 1381, the driving and rest times and speed on the so-called mass memory and on the driver card stores.

By 1 May 2006 were required in commercial vehicles tachograph, driving and rest times and speed were set on a record chart. Today in all new vehicles, the data is stored electronically. This Siemens VDO has developed the digital tachograph DTCO 1381, which stores this information on the so-called mass memory and on the driver card. Since the start of production is now around 500,000 of the new device have been produced and sold. Be provided estimates of the company to about 10 percent of the commercial vehicle fleet in Europe would have been a DTCO 1381. On the statutory basic functions, Siemens VDO has integrated into the DTCO 1381 additional useful features, for example, to facilitate the investigation of accidents trained experts.
