

USB adapter box to convert BUS-2 or serial connection for programming bulgar central

USB adapter box to convert BUS-2 or serial connection for programming bulgar central

Not-new

Description

This device is a converter from the USB interface (universal serial bus) of a PC to the BUS-2 or frame BUS and V.24 for PC without available serial COM interface. The adapter box meets the USB specification 1.1 for full-speed devices. If a PC has an available serial COM interface, the serial programming cable 026809 gives a quicker communication for control panel programming.

Additional information

Mandatory required for BUS-2 or frame bus connection under Windows 2000, Windows XP, Windows Vista 32-/64-bit version, Windows 7 32-/64-bit version.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
