

TELENOT-APP comvis MC

TELENOT-APP comvis MC

Effective immediately, the TELENOT alarm systems in addition to the iPhone app and iPad compatible on smartphones using the Android operating system from 2.1.

The interest in and acceptance of modern alarm technology from TELENOT in private and small commercial sector continues to rise through the alarm system app. In the first few months, there were already several thousand hits on the test center - everyone can test.

With the App comvis MC homeowners and entrepreneurs will always know whether home or business fit in everything. It has its own security technology literally in your hands - as Android App on the iPhone or a smartphone with an operating system such as the Samsung Galaxy.

So the owner is always and everywhere with his TELENOT alarm system in conjunction. He gets all the important status information and immediately see if a burglary, fire or technical alarm (water, gas, ...) has been triggered. So he sets out in emergencies do not get into danger and may take corrective measures. Of course you can also remotely access on the functions of the system - for example, to specific areas on or off or to control the light.

Simply test the alarms App from TELENOT by yourself:

comvis MCi in App Store from Apple or comvis MCa-app in the Android Store download. Search through the stores with the term or TELENOT comvis MC and download an app directly on your smartphone.
