

Scitex Brisque Impose V4 RS/6000

Scitex Brisque Impose V4 RS/6000

Category: CTP Platesetters -> RIP and Workflow

Manufacturer: Scitex

The machine was used together with an 8 Up CTP. So it will work. It comes with all manuals, cds, documentation.

The Brisque Impose workflow provides an intuitive, easy-to-use workflow with powerful hardware options.

Its comprehensive control over every phase of the prepress process reduces errors and increases efficiency at every step. The Brisque Impose solution is available in single- or multi-CPU configurations, offering the highest performance and the richest set of included features in the Brisque family. With state-of-the-art Performance Series 2-, 4- and 6-CPU hardware, these workflows have the power to drive all Creo CTP and CTF output devices, including very large format (16-page) devices, to their maximum capacity. Additional input and output compatibility is easily added through Brisque Extenders and Enhancers.

Comprehensive features for fast, accurate prepress production

Brisque Impose maximizes press-operating time, shortens makereadies, and handles unexpected pressroom problems without the need for reprocessing flats. Press-related settings, such as screening, dot gain compensation and imposition, are performed on the Brisque Impose before output so you can incorporate last-minute changes with ease.
