CTP platesetter

with 405 nm laser for digital

Imaging of metal plates with a polymer coating with
LSH technique

Benefits:

head unit measurement:

This provides more consistent lighting conditions, whether early in the morning or
late finished plates.

Windows based control software:

Easy intuitive control through clear windows. A remote control is thus
possible without difficulties.

External drum system

- Laser head directly in front of the printing plate, high depth of field
- No moving parts in the laser head - Long Life
- Mechanical brackets as in the press
- Plate curved outward as in the press and will
aligned with customer-specific punch
- Good possibilities for automation, since the car plate handling
can be applied as in the printing press

Exposure source

60mW violet laser diode, 405 nm
